Dr. Marjorie Franklin

Dr. Franklin practiced in the Quad Cities taking care of young children, including the Whiteside boys. After her career slowed down a bit Marjorie started participating in the QC Senior Olympics. She has demonstrated her versatility in both the arts and swimming. Her schedule remains quite busy as she will be traveling to Texas the week of our games to watch her grandchildren compete in their swimming meets!

David Thompson

David has been the event manager for cycling for many years. The fact that his events take place far from any other venue prevents most of us from seeing what a splendid job he does of organizing and officiating those athletes. His 10K time trial race in Preemption, IL and the 25K road race in Hampton, IL always go off smoothly because of his dedication to his sport!

Doug Sell

If there is a sporting event in the Quad Cities that requires volunteers you will see Doug. He has volunteered each year with our 5K race hosted on the Augustana campus. He also helped every year with the Susan Komen Race for the Cure. The East Moline Firecracker Run, The TKB Quad Cities Marathon and The Freedom Run are also events Doug has worked. Barbara Pickleball Shinbori

A retired board member and participant in the games! Barbara is a team player in more ways than one. Together with Roseanne Lewis they pretty much organized the games in 2017-2019. Now she has teamed up with David Langrock to win gold medals in the Pickle Ball. Barb continues to organize Pickle Ball tournaments through out the Midwest.

Dick and Mary Fislar

Going back to the early days of the QC Senior Olympics Dick was a Board Member of the QC Senior Olympics. His wife Mary was right there with him organizing and participating. Dick and Mary own Picture Perfect Travel and also continue to support local running with the organization of running groups and road races.

Dan Hansman

Dan is one of those athletes that had the ability to sprint at a high level for a very long time. He is at the same level of some of our Hall of Fame members, Pete Stopoulos, Lee Stopoulos, Mike Murphy, Howard Byers, Don Amery and Bill Melville. Dan has the record in the 50 meters for the 65-69 age group. He has been slowed since the pandemic and the replacement of both of his knees. He plans to train to get back to competing again!

Whiteside Family

31 years ago Fred Whiteside began his volunteering with the Quad Cities Senior Olympics as the event manager for track and field. At that time he never thought he would ever be old enough to compete in the games. When he signed up to help with the games his first assignment was to recruit volunteers to officiate the games. That is when his family came into play. Cathie, his wife, their two sons, Michael and Jay were quickly added. A phone call to his mom Flora and two brothers Russell and Richard added them to the list. His sister Mary and brother in law Terry have also helped through the years. Later, our granddaughter Riley Whiteside LeVan and her mom Missy joined in helping. Nephew Wade Whiteside and niece Margo Whiteside Taylor, along with her two children Eli and Colette, have also volunteered, which has led to 4 generations of Whiteside volunteers to the QCSO. It is a family joke to not answer the phone when Fred is calling because you know that a volunteer request is in the making.

Floyd "Bud" Smith

Bud has been an ambassador to track and field for over 65 years! He is a fierce competitor but a friend to all. Before the QC Senior Olympics were started, Bud competed in the Athlete's Foot Masters track meet that was organized by Pete Stopoulos at Augustana. Bud was still able to jump in those meets. Bud continues to be a family man as he takes care of his lovely wife. The story below written by Don Doxie does a great job of show casing Bud's accomplishments!

Bud Smith, who outjumped Wilt, profiled in Iowa paper

Don Doxie of the Quad City Times in Iowa has written a **marvelous story** on **Bud Smith**, a pioneering barefoot high jumper who became a masters record holder and world star. Bud was one of the first in history to clear 7 feet — but never got the credit he deserved. The story tells why Bud, now 72, is no longer jumping: "Two years

ago, plagued by arthritis, he had both hips replaced. He still goes to the Senior Olympics at Augustana College every year, but now he just does the shot put.”

Here’s the whole story, in case the link goes down:

High standards

By Don Doxsie | Thursday, April 17, 2008

You have to wonder what Wilt Chamberlain thought on that day back in 1957. Here he was, one of the most incredible athletes in the world — the 7-foot star of the University of Kansas basketball team that finished as national runner-up and the star of the Kansas track team. He was in his best event (the high jump) in the biggest invitational of the year (the Kansas Relays) on his home track.

And this unimposing guy from a place called Clinton, Iowa, was showing him up. Floyd “Bud” Smith remembers the moment fondly. It’s the day he beat Wilt the Stilt by 3 full inches and etched his name in the Kansas Relays record book.

The memories will come drifting back even stronger today when Smith and his son, Tim, attend this year’s Kansas Relays and hand out the awards to this year’s high jump winners.

“I felt great about being able to outjump the great Wilt Chamberlain,” said Smith, 72, who lives in Clinton. “My intention when I went down there was to beat everybody there. I didn’t care if their name was Wilt Chamberlain or what.”

Barefoot success

It was one of the high points of a track and field career that began back on his parents’ farm near Mount Carroll, Ill. Smith spent much of his adolescence shoeing chickens out of the barnyard so he had room to dive into a homemade high jump pit. He had gone over to Savanna and picked up a bunch of sawdust. He usually used a bamboo fishing pole as a crossbar, occasionally switching to a 2×4 when he wanted to work on his trail leg kick.

When Smith began high jumping at Mount Carroll High School, the school did not have track shoes, and his parents didn’t have any money to buy him a pair. So he high jumped in his bare feet. He tied for the Illinois state title that way in 1953. It’s one of only two state track championships in the history of the now-defunct school, and the other was 102 years ago.

“The school had a grass track. We didn’t even have cinders, so I just decided to totally jump barefoot,” Smith said. “It gave me a good feel on the takeoff. When you take off, you want that lead leg to be as light as possible, and there’s nothing lighter than a bare foot.”

When he began jumping at Northern Illinois State Teachers College (now Northern Illinois University), the wooden take-off boards they used at the college level bruised his feet. So he began using a shoe on his left foot only. He continued high jumping well into his 60s and never once did it with a shoe on his right foot.

His stay at Northern Illinois didn’t last long. In his first meet, he set a national record for college freshmen — 6-foot-8 5/8 — but college wasn’t for him.

“I was born and raised on a farm,” he said. “I didn’t have the mindset that I was going to go to college. I really wasn’t prepared to go to school.”

He momentarily thought about transferring to Western Illinois, which would have afforded him a chance to train in South Africa the following summer. Plenty of other schools wanted him to transfer, too.

"But I chickened out," he said. "I thought it was more important to get married. So, I got married and raised a family instead."

Life after college

He went to work for Clinton Corn Processing — now ADM Corn Sweeteners — and after 12 years switched over to work in a polyethylene plant in Clinton. He stayed there until retiring in 1997.

But he didn't stop jumping. He got in touch with Ted Haydon, the coach of the University of Chicago Track Club, and began competing for one of the premier amateur track clubs in the country.

Among his teammates were Ted Wheeler, who later became the head track coach at Iowa, and two men who represented the U.S. in the 1956 Olympics in Melbourne, Australia — sprinter Ira Murchison and miler Phil Coleman.

Smith also took a shot at the Olympics in '56. The townspeople of Clinton and Mount Carroll took up collections to pay his way to the AAU meet in Bakersfield, Calif., but Smith didn't place in the top six and never got to the Olympic trials.

The gold medal ended up being won by fellow American Charles Dumas, who became the first man to top 7 feet and who went 6-11¼ in Melbourne.

Smith matched that height only a few months later at a meet in Rockne Stadium in Chicago — the best jump in the world in 1957 — and topped 7 feet although he didn't get credit for it. The take-off area at Rockne was uneven and the jump was measured from the highest point. Haydon measured it at the spot where Smith actually took off and found the height was 7-0½ from that spot. That would have tied Dumas' world record.

It was only a few weeks later that Smith went to Kansas and topped Chamberlain. The two men had tied in the event the year before, but this time Smith jumped 6-9 to Wilt's 6-6. His record stood for 18 years.

Still competing

Smith never did anything that spectacular again, but he continued to compete as the years passed.

"I always told my wife that if I ever got down to 6 feet, I'd quit," he said. "But then they developed the masters programs for jumpers over 40. I was going to be jumping against guys my own age so I kept on competing. Then they developed the seniors program for athletes over 50, so I kept going."

As recently as 1993, at the age of 58, Smith set a record for his age group by clearing 5-2 at the Nike Illinois Relays.

Two years ago, plagued by arthritis, he had both hips replaced. He still goes to the Senior Olympics at Augustana College every year, but now he just does the shot put. His jumping has taken him all over the world. He has competed in Senior Olympics in Italy, Great Britain and Puerto Rico. He went to Russia three times to help get seniors programs started there.

"It would never have happened if not for athletics," he said. "I feel very fortunate, very blessed for the opportunity I've had. God was good to me. He gave me the talent."

Another highlight will be this weekend when he returns to the scene of one of his triumphs.

Tim Smith wrote to Kansas last year to get some sort of certification of his father's record. Officials there went a step further, extending an invitation for Bud to come back. They also sent him eight minutes of videotape from the 1957 high jump

competition that Smith treasures.

"I'm excited about going back down there," he said. "I'm really hoping they have some kind of museum or hall of fame that I can walk through. I'm sure there will be things in there about Wilt Chamberlain and Al Oerter and people like that."

And maybe — just maybe — there will be something about a guy from Clinton who out-jumped them all one day in 1957.

I spoke by phone to Bud several months ago, and his favorite stories are about the friendships he's made in masters track. Once he gave a little present to a Russian lady at a world meet, and the gesture led to hosted trips to the Soviet Union and meeting with the legendary **Valeri Brumel**.
